

## Reminders for Purchasing International Students Insurance

Dear International Students,

According to the regulations of Insurance Company, please pay attention to the following reminders.

If you are outside China and plan a trip to China, please make sure to complete the purchase of the Group Comprehensive Insurance for International Students before entering China, ensuring that the insurance is in effect when you enter China.

If you have entered China, but have not purchased the insurance yet or the insurance has lapsed, please make sure to purchase the Group Comprehensive Insurance for International Students immediately.

If you have completed the purchase of the insurance, please pay attention to the expiration date of the insurance and timely renew it, to ensure that you have full insurance coverage during your study in China. If there is a break period in coverage, it may affect the claims.

Recommended purchase website: *www.lxbx.net* (insurance fee: RMB 800/year; please see attachment for detailed purchasing operation)

Attention please

1. This insurance does not cover claims for medical expenses outside Chinese mainland.
2. Students whose scholarships are within the validity period are required to purchase the insurance on their own, and after verification, the cost of their insurance will be paid to the student's account together with the scholarship.
