

# School of Psychology

## I . Introduction to Disciplines and Main Research Fields

At primary discipline level, the school of psychology has the right to award primary-level Master's Degree and professional degree Master. There are three research directions: Clinical Psychology, Social Psychology and Mental Health, and Cognitive Neuropsychology.

**Main Research Fields in Psychology**

Disciplines	Research Fields
Clinical Psychology	Psychological Counseling and Psychotherapy, Pathopsychology, Psychological Assessment, Psychological Crisis Intervention, etc
Social Psychology and Mental Health	Judicial Psychology, Organizational Behavior, Artificial Intelligence, Media Psychology, Aviation Psychology, etc
Cognitive Neuropsychology	Neurobiology, Molecular Genetics, Cognitive Psychology, Neuroimaging, etc

## II . Faculty

### 1. Overview of Faculty

There are two full-time teachers, 17 subject tutors and 29 part-time teachers who come from clinic, research institute, and administration department of Shanghai Mental Health Center. The 32 faculty and staff include 20 doctorate degree personnel, seven master's degree personnel, and five bachelor degree personnel ( Among all faculty, 84% of them have doctorate degree or master's degree). Also, these teachers have different titles: There are 17 professors , six associate professors, six lecturers, 22 clinical professionals, and seven researchers, which contains two Chair Professors (including Distinguished Professor), one member of the Thousand Talents Plan of Shanghai, one member of Shanghai Oriental Scholar, one member of Shanghai Leading Talents Program, three members of Pujiang Talents Program of Shanghai, one member of Shanghai Excellent Academic Leaders, two experts of the Hundred Talents Plan of Shanghai, two members of “ New Star of Yiyuan”,

two members of Excellent Academic Leaders of Shanghai in Public Health, three members of Shanghai Public Health Young Talents, four members of Shanghai Young Medical Talents Training Plan, two Shanghai Jiao Tong University Morning Star Scholars, five Shanghai Jiao Tong University Excellent Young Teachers, two members of the New Hundred Talents Plan of Shanghai Jiao Tong University, and 19 teachers with Special Government Allowances from State Council.

## 2. Renowned Professors

Number	Name	Position	Research Interest
1	XIAO Zeping	Shanghai Excellent Academic Leader	Clinical Psychology
2	FANG Yiru	Shanghai Leading Personnel	Clinical Psychology
3	ZHAO Min	Shanghai Health Bureau yiyuan New Star, Shanghai Health System Excellent Academic Leader	Social Psychology and Mental Health
4	XIE Bin	Shanghai Health Bureau yiyuan New Star	Social Psychology and Mental Health
5	WANG Jijun	Shanghai Pujiang Talent, Shanghai Baiyulan Science and Technology Talent	Cognitive Neuropsychology
6	LI Chunbo	Shanghai Health Bureau yiyuan New Star, Shanghai Health System Excellent Academic Leader	Cognitive Neuropsychology
7	WANG Zhen	Shanghai Pujiang Talent, Shanghai Youth Scientific Morning Star	Clinical Psychology

## III. Achievements

The school has conducted 29 projects supported by National Research Fund and 46 provincial and ministerial research projects since 2011, including one key project of the National Natural Science Foundation of China (NSFC), 11 general projects of NSFC, 12 projects supported by National Science Fund for Distinguished Young Scholars, one International Cooperation Projects of NSFC- Cooperative Project with NIH (Sino US), one NSFC-NIH Biomedical Cooperative Project, one major project of National Science and Technology for “Major New Drugs Innovation and Development”, one project of 2012 new topics of the 12th Five Year Plan and rolling topics of the 11th Five Year Plan, and one key technology research project of the Judicial Ministry in the 12th Five Year Plan. In addition, five international cooperative research projects have been added.

There are 174 SCI articles being published in important academic journals both China and abroad. Especially, articles published in *Psychological Medicine*, *Psychoneuroendocrinology*, and *Cochrane Library* have great influence and potential application value. In addition, there are 720 Chinese articles being published in journals of statistic source. These scientific research achievements won a number of academic awards, including two National Science and Technology Progress Awards, two second prizes and one third prize of Shanghai Science and Technology Progress Awards, two second prize of Shanghai Medical Science Award and nine items authorized invention patents.

As the long-term research and training center of the World Health Organization in China, Shanghai Mental Health Center affiliated to Medicine School of Shanghai Jiao Tong University has passed the eighth identification by the collaboration center of the WHO in China.

#### **IV. International Collaboration**

Psychology discipline is actively dedicated to close academic communication with overseas famous universities and psychotherapy associations from all over the world. Now all-round substantive cooperation has been carried out with many famous Universities, like the Stanford - PAU University, Deakin University, and Nottingham University, including SMHC - Stanford - PAU psychology discipline cooperation plan, SMHC- Emory University global cooperation center for mental health, strategic cooperation agreement with Deakin University, UMaSS, King's College London, the University of Nottingham scholar exchange program, etc. At the same time, every year our center holds Sino-German psychological treatment, the Sino-US cognitive behavioral therapy, and the children and adolescents psychological problem diagnosis technology. All continuous training projects and sino-foreign cooperation projects have been lasted for more than 10 terms. In the future, there will be more exploration in the internationalized talents cultivation, including promoting the construction of internationalized course system and expanding the recruitment of international students, etc. Through international exchanges and learning as well as sustained investment and construction in five to ten years , we strive to build international faculty management mode, including organization management framework, academic decision-making mechanism, teachers' employment system, salary welfare institution, tenure system, teachers academic development, and talents cultivation mode, etc.

##### **1. Student Exchange Programs**

- Joint Education Program between Shanghai Mental Health Center and Emory University ( Graduate Co-culture Program)
- Graduate Student Exchange Program between Shanghai Mental Health Center and New York State Institute for Basic Research
- Graduate Student Exchange Program between Shanghai Mental Health Center and

University of Nebraska-Lincoln

## **2. Joint Education Programs**

- The Educational Cooperation Program between Shanghai Mental Health Center and Palo Alto University ( Clinical Psychology PhD Program )
- The Educational Cooperation Program between Shanghai Mental Health Center and Deakin University in Australia
- The Educational Cooperation Program between Shanghai Mental Health Center and the Nottingham University
- The Educational Cooperation Program between Shanghai Mental Health Center and King's College in London

## **V. Platforms for Scientific Innovation**

- Shanghai Key Laboratory of Severe Mental Disorders
- Shanghai Institute of Mental Health Research
- Med-X-SMHC Neuroimaging Center
- Shanghai Psychological Counseling and Treatment Center
- Shanghai Psychological Counseling Training Center
- Shanghai Voluntary Detoxification Center
- Psychosomatic Diseases Ward
- Children and Adolescents Psychiatric Ward
- Psychological Assistance Hotline (12320-5)
